DETAILED ACTION

And

EXAMINER'S REASONS FOR ALLOWANCE

1. Claims 1-15 are allowed.

Examiner's reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The Applicants' claims are allowed for at least the reasons provided.

2.1 As regards independent claims 1, 6 and 11 and using independent claim 1 as an example, the following limitations, in combination with other limitations are neither anticipated nor made obvious by the prior art, *"information relating to the drawing file from a group of information comprising file size, date, and author"* in combination with a conversion server component configured to *"transform(ing) the drawing file from one drawing file format to another drawing file format without accessing the application that created the drawing file"*. The combination for the cited expressly claimed limitations and the arguments presented in the 12/22/2004 responses have been persuasive and the Examiner withdraws all previously applied prior art rejections.

- 2.2 Dependent claims 2-5, 7-10 and 12-15 are allowed as they depend upon an allowed base claim.

- 2.3 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3.1 The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Patent 5,646,862 disclosed methods of providing a client server environment on a network including CAD file translation (Abstract, Figure 14 and Col. 4 lines 46-55) however, this reference does not disclose the expressly claimed limitations as regards, *drawing file size, date and author.*

US Patent 5,608,874 discloses methods of file translation from a server to a client (Abstract) however, this reference fails to teach or suggest, the expressly claimed limitations as regards, *drawing file size, date and author.*
